

COGNIZANCE

PLACEMENT PROTOCOL

CIVIL ENGINEERING DEPARTMENT

ROUND 1

5th December

CIVIL ENGINEERING DEPT.

CORE CIVIL: APTITUDE (COMMON)

EXAM STRUCTURE

- > **Questions:** 10
- > **Marks:** 10 (1 Mark each)
- > **Duration:** 90 Minutes Total
- > **Negative Marking:** NO

SYLLABUS

- > **Surveying**
- > **Basic Civil Engineering**
(Minimal technical knowledge)

CORE CIVIL: SECTION A

DETAILS

- > **For:** ALL YEARS
- > **Questions:** 30
- > **Total Marks:** 30
- > **Format:** 1, 2, & 3 Mark Qs

TOPICS

- > Quantitative Aptitude
- > Logical Reasoning
- > Verbal Ability

CORE CIVIL: SECTION B

DETAILS

- **For:** 2nd & 3rd Year
- **Marks:** 30 (1 Mark each)
- **Note:** Optional Bonus for 1st Year

TOPICS

- Water Supply & Wastewater
- Geotechnical Engineering
- Highway & Traffic Eng.
- Pavement Engineering
- Design of Concrete Struct.

CORE CIVIL: SECTION C

3RD YEAR SPECIALIST

- **Total Questions:** 30
- **Marks:** 30 (1 Mark each)
- **Bonus:** For 1st & 2nd Year

SYLLABUS

- Strength of Materials
- Fluid Mechanics
- Building Materials
- Construction Mgmt.

CONSULTANCY DOMAIN

PATTERN (100 MARKS)

- > **40 MCQs:** 2 Marks each
- > **4 Puzzles:** 2.5 Marks each
- > **4 SQL Queries:** 2.5 Marks each

SYLLABUS

- > Microsoft Excel
- > Power BI
- > Python Libraries
- > SQL (Databases)
- > Logical Puzzles

SOFTWARE: BASICS

SECTION A

Quant, Logic, English

- 20 Questions
- 1 Mark each
- Total: 20 Marks

SECTION B

Basic Technical

(Common for all years)

- 10 Questions
- 1 Mark each
- Total: 10 Marks

SOFTWARE: CODING

SEC C (1ST YR BONUS)

- > **Topic:** Code Snippets, CS Fundamentals
- > **Qs:** 6
- > **Marks:** 15 (2.5 each)

SEC D (2ND/3RD YR)

- > **Topic:** DSA Coding
- > **Qs:** 2
- > **Marks:** 30 Total
- > Easy(10), Med(20)

SEC E (2ND YR BONUS)

- > **Topic:** Adv. DSA
- > **Qs:** 1 (Hard)
- > **Marks:** 25 Total

SOFTWARE: HELP

- It is recommended for 2nd and 3rd years to start with the coding question first.
- First years need to start from the beginning. And may attempt the bonus section.
- Many companies don't use LeetCode-style formats in their OA. Make sure you're comfortable parsing raw input as presented in actual assessments.

```
1  #include <iostream>
2  using namespace std;
3  ✓int main() {
4      int num;
5      cin >> num;    //Reading input from STDIN
6      cout << "Input number is " << num << endl; // Writing output to STDOUT
7  }
```

If you want to remove `#include<iostream>` and want to write `#include<bits/stdc++.h>` or whatever you are free to do.

Copy/pasting is strictly prohibited.

ROUND 2: GROUP DISCUSSION

Qualified participants will discuss Technical, Abstract, or Current Affairs topics.

EVALUATION METRICS:

- Content & Knowledge
- Communication Skills
- Confidence
- Team Interaction

ROUND 3: INTERVIEW

FORMAT

- > One-on-one Session
- > Domain Specific:
 - > Core Civil
 - > Software
 - > Consultancy

REQUIREMENTS

- > **Attire:** Decent
- > **Documents:**
 - 2 Hard Copies of Resume
